

## PATT HANSON COLLECTION;

The Patt Hanson Files are contained in a 4-drawer file cabinet filled with alphabetically arranged folders titled by surname. The individual family folders contain an assortment of papers: Xerox copies of articles, family group sheets, and sub files on collateral family names. No attempt is being made to index the contents of each folder at this time, but rather a listing of the surnames is being made. The the location and period of time is indicated when possible. The indented names of families are included in the file of the dominant name above, in the same order as originally filed by Patt Hanson. Many Family Group Sheets (FGS) are included and so abbreviated. Patt's ahnentafel chart traced back to 1530 in some lines, has been placed in the first folder of her large collection and Pedigree charts on her own family are in the second folder which may help other researchers identify family connections.

Patricia Ann Daniels was born 15 April, 1924 in Hoquiam, Grays Harbor, Washington, daughter of Ernest Wayne Daniels of Hartford, Connecticut and Allie Gertrude O'Neal of Haughton, Bossier Parish, NJ.. She married 9 October 1943 to Ray T. Hanson. They lived in Union, Washington.. Pat described her profession as a genealogist, and collected a massive amount of material that was donated to the Fiske Library. She died after 2002
